

How to set up the eSIM service on Apple iOS devices

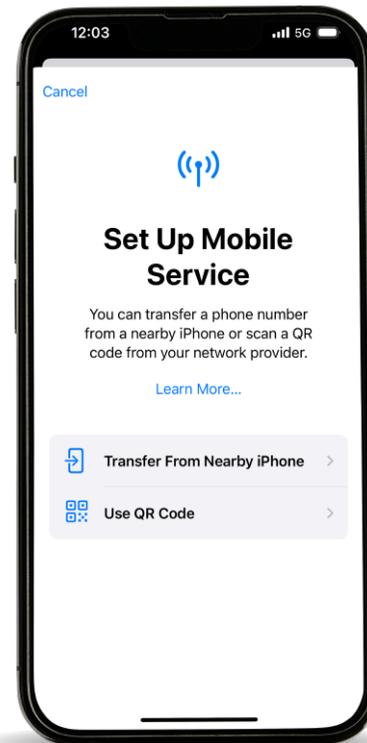

1.

On your device, open "Settings" and select „Mobile Service“. Make sure the device is connected to WiFi or a mobile network.

2.

Select „Add eSIM“.

3.

Select „Use QR Code“, then scan the QR code you received via email. Wait until the eSIM is downloaded to your device.

4.

Select „Continue“ to activate the eSIM

5.

Select „Done“ to finish the setup.
